SUMMARY

Bachelor of Science in Information Technology graduate with a strong passion for technology and a solid foundation in software development, particularly in web-based systems. I have over a year of hands-on experience creating and maintaining web applications for a local government unit, contributing to smoother operations and improved user experiences. I also have a growing enthusiasm for data analytics and continuously strive to strengthen my skills in both development and data-driven problem-solving. Driven, adaptable, and eager to learn, I am seeking an opportunity to apply my abilities in building innovative online solutions and to grow within a dynamic, forward-thinking team.

EXPERIENCE / PROJECTS

CITY GOVERNMENT OF SAN PABLO

Web Developer / Job Order

San Pablo City, Laguna
July 2024 - November 2025

- Real Property Tax Management System – automated tax assessment, payment collection, and records management to improve accuracy and streamline operational workflows.
- Tricycle Franchising and Renewal System – enhanced the processing of franchise applications, renewals, and record-keeping, resulting in faster and more efficient service delivery.
- SPC Kiosk Application – streamlined queue management for local government units by providing intuitive, user-friendly interfaces that improved service flow and minimized congestion.

FREELANCE / PERSONAL PROJECTS

Software Developer

San Pablo City, Laguna
November 2025

- Participated in the development of Sound Bar Application, a streaming application for sound bar testing, fast device switching for SONY

CAPSTONE PROJECT

Student

San Pablo City, Laguna
July 2024

SKILLSEEK MOBILE APPLICATION: Developed a mobile app to streamline the hiring of skilled workers such as electricians, carpenters, and plumbers within the local barangays. The app features user registration, worker profiles, job postings, and a search function to connect residents with qualified service providers, promoting local employment and efficient service access.
